Sir:

The owners of the above-referenced patent have requested a change to Large Entity Status. One of the owners, namely, University of Maryland, has small entity status. However, since the patent is jointly owned by the University of Maryland and the U.S. Government (Naval Research Laboratories), who is now the co-owner of the above-referenced patent, and it is believed by the University of Maryland to have been a co-owner at the time of the payment of the Issue Fee (which was paid as a small entity), enclosed a check in the amount of \$720.00 to insure that the above-referenced patent is afforded the proper large entity status.
